In urma evenimentelor de la etapele anterioare, Comisarii Sportivi reamintesc concurentilor reglementarile privind sistemele de stingere a incendiilor de pe masinile de concurs.

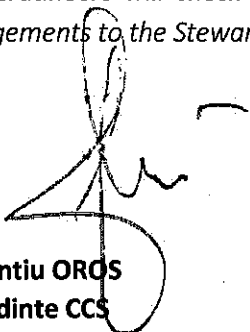

Sistemele trebuie folosite conform instructiunilor producatorilor. Art. 253 – 7.2 din Anexa J a FIA CSI nu mentioneaza cand pot fi activate sau dezactivate sistemele extintoarelor. Din acest motiv, sistemul trebuie sa fie activ continuu (sistem armat) in timpul raliului.

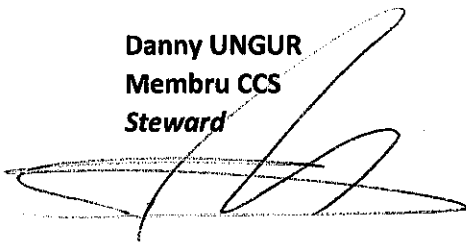

Comisarii Tehnici vor verifica statusul sistemelor de stingere a incendiilor din masinile de concurs in timpul raliului si vor comunica Colegiului Comisarilor Sportivi orice abatere.

*Due to incidents in previous rallies, the stewards remind the competitors of the regulations in force regarding fire extinguishing systems on the competition cars.*

*The system must be used in accordance with the manufacturer's instructions. Article 253-7.2 of Appendix J to the 2021 FIA International Sporting Code does not specify when the system can be switched on or switched off. For this reason, it must always be active (system armed) during the rally.*

*The Scrutineers will check the status of the fire extinguishing systems during the rally and report any infringements to the Stewards.*
